A Premium Plan

— WELCOME

Your week is already planned.

The hardest part of eating well is deciding what to eat. This plan removes that decision for seven full days — every meal is chosen, portioned and counted, and built to be genuinely enjoyable and easy to cook.

HOW TO USE THIS PLAN

1

Check your target

Page 03 shows how to scale the plan up or down for your goal.

2

Shop once

Use the full shopping list on page 11 to buy the whole week in one trip.

3

Prep & follow

Batch-cook with the tips on page 12, then just follow each day.

4

Swap freely

Don't like a meal? The substitutions on page 13 keep the numbers intact.

Pairs with the Nutrition Fundamentals Guide. This plan shows you *what* to eat — the guide explains *why*, so you can build your own weeks after this one.

— MAKE IT YOURS

Calories & macro guidance

— COOK ONCE, EAT ALL WEEK

Meal prep tips

A couple of hours on a Sunday makes the whole week effortless. These six habits are the difference between a plan you follow and one you abandon.

1 Batch your protein

Cook all your chicken, mince and fish in one go. Portion into tubs so lunches and dinners are grab-and-heat.

2 Pre-portion carbs

Cook a big batch of rice and pasta and weigh it into portions. Reheats in minutes and keeps totals honest.

3 Roast a veg tray

One big tray of roasted veg covers several meals and adds volume, fibre and colour for almost no calories.

4 Use your freezer

Bolognese, chilli and curry freeze brilliantly. Make double and bank a few "emergency" high-protein meals.

5 Keep fast protein in

Yoghurt, eggs, shakes and tinned fish rescue any day. Never be more than 5 minutes from a protein hit.

6 Beat boredom with spice

Same base, different seasoning. Fajita, piri-piri, teriyaki or curry spices turn one prep into four meals.

Two hours on Sunday saves you from a week of hungry, last-minute decisions. Prep is the real secret to sticking to any plan.

— DON'T LIKE SOMETHING? SWAP IT

Food substitutions

The golden rule: **swap like-for-like on protein**. Match the protein and the plan keeps working, whatever your taste or diet.

SWAP LIKE-FOR-LIKE

If the plan says	You can use
Chicken breast	Turkey, lean pork, or prawns
Salmon / cod	Any white or oily fish, or tuna
Rice	Quinoa, couscous, or potatoes
Greek yoghurt	Skyr, quark, or cottage cheese

VEGETARIAN SWAPS

Chicken / mince	→	Tofu, tempeh, Quorn	Tuna / prawns	→	Chickpeas, halloumi
Beef mince	→	Soya mince, lentils	Whey protein	→	Soy / pea protein

Keep portions equal. Plant proteins are often lower in protein per 100g, so use a slightly larger portion to match the grams listed.
